

Challenge Name: sanity check - 100 (MISC)

The Setup

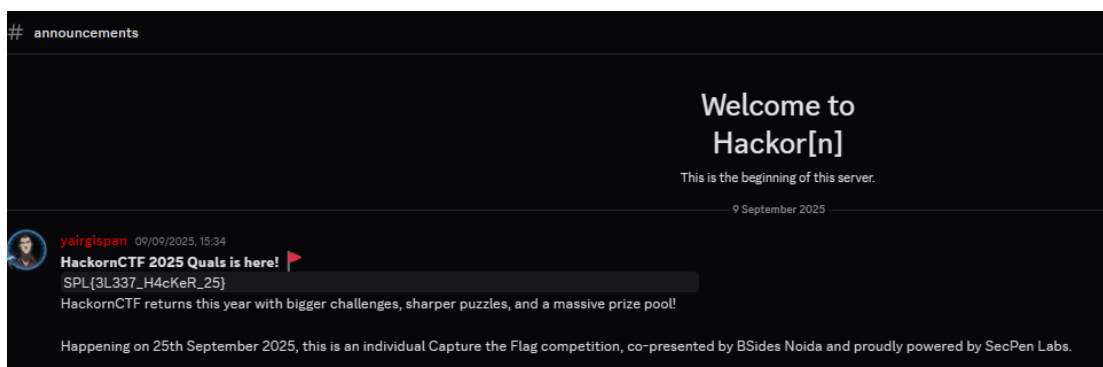

The challenge hinted that the Hackorn ticketing system was compromised and that an “announcement tab is hiding some secret.” The challenge tagline #PlainSight suggested the secret was visible once you knew where to look.

What I did

1. Visited the Discord channel. The announcement/announcement-like area looked normal but hinted that something was hidden.
 2. Opened the server's Discord announcement topics (**Announcements**).
 3. Found the flag posted as an announcement message.
-

Result

The announcement contained the flag:

Flag captured.

Final

Simple and classic — the flag was hidden in a Discord announcement topic, right in plain sight! Nice catch!

Flag: `SPL{3L337_H4cKeR_25}`
