

Challenge Name: bardeck - 100 (OSINT)

Challenge Info

bardeck

100

Description

Files

125 Solves

Description

Rumors say the bartender hides something valuable behind the counter.

Task: Find the product name hidden in the bar.

Flag Format: SPL{random}

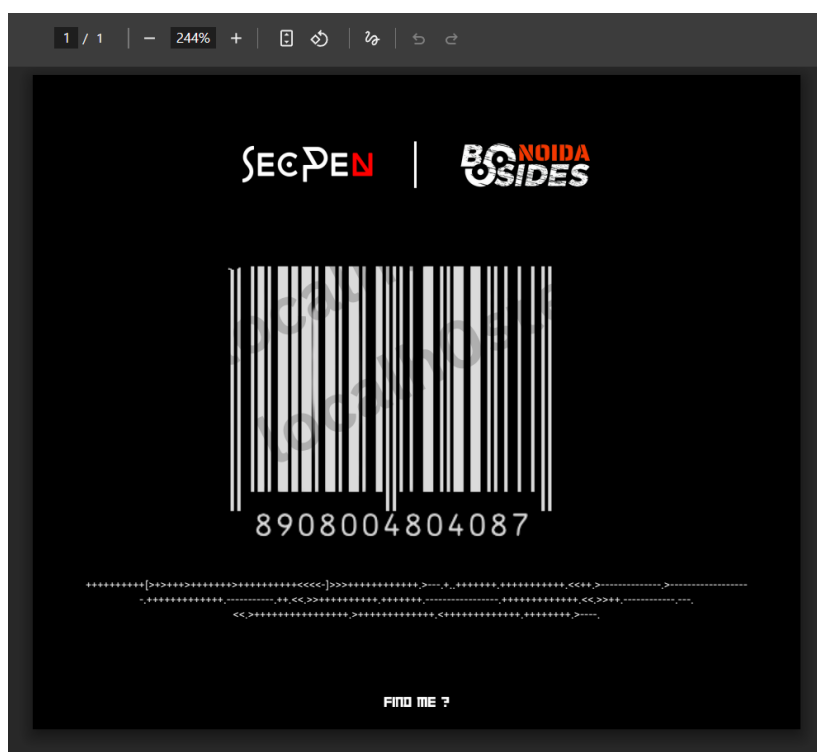

Files

OSINT-.pdf

Flag

Step-by-step

1. Examine the PDF

- Opened the PDF and saw a Brainfuck program block (rabbit hole) and a barcode number: 8908004804087.
- The Brainfuck output said:
- Rabbit Dance over the Train

— a red herring / rabbit hole to distract from the real solution.

2. Identify the product

- Using the barcode number 8908004804087, a quick online search revealed the product:
- Catch Club Soda 750 Ml

3. Submit the flag

- According to the challenge format: `SPL{<product_name_without_spaces>}`
- Resulting flag: `SPL{CatchClubSoda}`

Notes & Tips

- The Brainfuck code was intentionally misleading — a classic rabbit hole.
- Barcodes can point directly to real-world products, making them easier to identify.
- Always consider that not every puzzle artifact is needed; some are meant to mislead.

Final

Classic misdirection — the Brainfuck code was a rabbit hole, but the barcode led straight to the flag. Nice catch!
